

Email Blast by Open Rate

4FEB2024

OVERVIEW

ACRM offers the opportunity to send your message in an **Email Blast** to the exclusive ACRM database.

ACRM will send your message through the ACRM email service provider using your HTML code. If HTML is not easily accessible, vendors can provide content via a word document that includes all desired text, images, and links.

ACRM will provide a maximum of 6 email sends which includes the initial send, two follow-up notices, a break from the promoted content, the next resend, with two additional follow-up notices.

All submitted content is subject to ACRM approval

HOW THIS WORKS

STEP 1) Vendor identifies the target audience using the ACRM survey form (geography, diagnostic, and/or disciplines)

STEP 2) Vendor identifies the desired Open Rate

STEP 3) Vendor provides ACRM with an HTML code (preferred method) or word document

STEP 4) ACRM designs the email using provided HTML (preferred method) or word document and then ACRM will send the client a test sample for review / approval

STEP 5) Once the client test sample is approved, ACRM and Vendor will develop a distribution plan for the date and timing of emails to be sent based on ACRM availability.

ACRM.org/EmailBlastOpenRate

STEP 6) ACRM continues to send messages to the target audience until the desired Open Rate is received or until the maximum amount of email sends has been reached whichever comes first.

 ACRM will provide a maximum of 6 email sends which includes the initial send, two follow-up notices, a break from the promoted content, the next resend, with two additional follow-up notices.
 UPON REQUEST) ACRM sends a final report to the vendor of email performance using standard email metrics

USE CASE

STEP 1) Vendor target is North America, spinal cord injury, the full rehab team.

STEP 2) Vendor seeks an open rate of 1,000

STEP 3) ACRM sends messages to some multiple of 1,000 based on historical open rate statistics. ACRM will send additional messages until the 1,000 open rate target has been reached, or the maximum amount of email sends has been reached.
