ACRM President

Eula C. and Andrew C.
Carlos MS Rehabilitation
and Wellness Program at
Shepherd Center

At ACRM, we are all about the research, with the goal of bringing that research — the very best and latest science into practice — faster.

WITH GRATITUDE... The breadth and depth of this event is truly extraordinary and would not be possible without the incredible Program Committee (pg 40) led by **Stephanie Kolakowsky-Hayner** and **Brad Kurowski** as well as the outstanding work from hundreds of faculty members and poster presenters.

This event is made financially possible due to the support of our sponsors and exhibitors. Please visit them, and learn from them at the **ACRM EXPO**.

EXCITING PLENARY, FEATURED SESSIONS & SPECIAL SYMPOSIA

We are honored to have presenters of the highest caliber here at ACRM. Four major **PLENARY SESSIONS** anchor each day beginning Tuesday evening. **SPECIAL SYMPOSIA** take place throughout the conference in addition to two **FEATURED SESSIONS** Wednesday afternoon.

NEW TO ACRM? We have a special welcome for you. First, we hope you will wear the **#I buttons** — to help identify you as super special. Please don't miss the *Early Career & First-Time Attendees Welcome* **Tuesday 3:30 – 4:30 PM** in the Continental Foyer on the lobby level. I will be there & look forward to meeting you. The ACRM community group leaders will provide quick summaries about their groups and then you get the chance to mingle and meet. Check out the **ACRM Community Group Meetings Schedule** on pages I4 – I5 and plan to attend — there are many opportunities to help advance rehabilitation here.

Use the **Searchable Online Program & Scheduler** to login and see session details, build your own schedule, even connect with and message fellow attendees and faculty. This dovetails with the **ACRM App** — available in the Apple store and Google Play. Navigate this incredible program from your laptop and your mobile devices.

We thank you for participating in the ACRM Annual Conference and for contributing your time and talents as we engage across disciplines, institutions, international borders and diagnoses to IMPROVE LIVES.

All about the research & the community

OFFICE OF THE MAYOR LORI E. LIGHTFOOT CITY OF CHICAGO

November 5, 2019

Dear Friends:

On behalf of the City of Chicago, I am honored to welcome all those gathered for the American Congress of Rehabilitation Medicine's Annual Conference.

The American Congress of Rehabilitation Medicine (ACRM) is a non-profit organization whose mission is to improve the lives of those living with disabilities through organization whose mission is to improve the lives of those living with disabilities through rehabilitation. This year's conference brings together more than 2,000 rehabilitation with a full schedule of educational sessions. renabilitation. This year's conterence brings together more than 2,000 renabilitation professionals to network, inspire, and learn. With a full schedule of educational sessions, naturally avants and nancton content sessions for 20 focus areas. meetings, presentations, networking events, and nonstop content sessions for 20 focus areas, and nonstop content sessions focus areas, and non industry professionals will gain the tools and resources needed to bring new research and industry professionals will gain the tools and resources needed to bring new research and innovation to rehabilitation medicine, I commend the American Congress of Rehabilitation Medicine for their continued efforts in moving the rehabilitation field forward.

I hope that during your stay in Chicago you take the time to see all the City has to offer. Vibrant neighborhoods, an iconic skyline, and an incredible lakefront invites you to explore Evolution and labefront areas four the vibrant neighborhoods agrees Vibrant neignbornoods, an iconic skyline, and an incredible lakerront invites you to explore Chicago. Explore our downtown and lakerront areas, tour the vibrant neighborhoods across Officago, Explore our downtown and takerront areas, tour the vibrant neignborhoods across our city, sample our diverse cuisine, visit our distinguished universities, and our world-class I hope your event is memorable and enjoyable. Best wishes for continued success.

The Emphist

HOW to **NAVIGATE** the **CONFERENCE**

SOME PREFER APPS, SOME PREFER PAPER... ACRM

has put together a hybrid approach to Conference information — making the most of paper and digital assets in hopes of helping everyone navigate to their preference. This conference program is designed as a lightweight overview to be used as a supplement to the APP, the Online Program and the PDF. Use the App and Online Program to see session descriptions, faculty information and the up-to-date room assignments.

CONFERENCE TOOLS

I) ACRM Conference APP: www.ACRM.org/app

- The Conference in your hands that is the ACRM App.
- Login using the email sent to you from crobinson@ACRM.org.
- The APP and the Online Program have the latest room assignments and info
- Search by track, names, keywords, session ID numbers or by day.
- Create your own agenda on your device of choice.
- Save your favorite sessions, presenters, and exhibitors to look up later.

2) **ACRM Online Program** www.ACRM.org/op

- The Online Program along with the App, have the latest room assignments and session details.
- Search by track, names, keywords, session ID numbers or by day.
- Create your own agenda on your device of choice.
- Save your favorite sessions, presenters, and exhibitors to look up later.

3) **Conference Program** (this is it) PDF: www.ACRM.org/program

- View the conference schedule at-a-glance in this paper format.
- Supplement with the details from the App and the Online Program.
- Use PDF version of this brochure: www.ACRM.org/2019program.

TIP: Save PDF to your home screen for quick reference.

PLEASE NOTE: Room locations may change at the last minute, so please consult the App and the Online Program for the latest room assignments.

GENERAL INFORMATION

ON-SITE CHECK-IN & REGISTRATION

Visit the Registration Desk to check-in or register and receive your name badge, attendee bag, program, and any tickets purchased. The ACRM team is here to welcome and help you!

ADD PRE-CONFERENCE COURSES OR TICKETS

It's not too late! Add Cognitive Rehabilitation Training, the Early Career Development Course, ACBIS, or an Instructional Course. Tickets may also be available to attend the **Henry B. Betts**Awards Dinner & Gala and Luncheon Lectures. Inquire and purchase at the Registration Desk. Luncheons & Gala will likely sell out!

NAME BADGE

Your badge is your ticket to entry. Badges are required for entry to all sessions, events and EXPO floor. Badge sharing, splitting and reprints are strictly prohibited.

Registration is required to attend Instructional Courses and name badges will be scanned at the door. Check with the registration counter to add on an Instructional Course. Please wear your name badge to the GALA for entry access.

WHERE ARE THE HANDOUTS?

Online access to conference slides of symposia and instructional courses (when provided by presenters) are available to all registered attendees—access is based on your registration selections. Attendees may access slides for the same DAY that they register and not for the full conference unless they purchased the WORLD PASS. Slides are accessible via the conference app and the online program.

Your login details to access the app and the online program login have been emailed from crobinson@acrm.org to the email address provided when you registered. You can request a new password by selecting the "Forgot Access Key" in the app or in the online program. Access to the available conference slides may also be purchased by those not attending at the special price of \$399/549 for member/non member.

QUESTIONS? Visit the friendly staff at ACRM REGISTRATION DESK or or at the ACRM headquarters.

RESTAURANT GUIDE

For restaurant recommendations inside and outside of the hotel complex:

www.ACRM.org/chieats

ERRORS & OMISSIONS

Although great team efforts have been made to ensure the accuracy of this program, we regret any typos and inadvertent omissions. Look for an addendum insert for any changes since this printing, and be sure to consult the ACRM App and the Online Program & Scheduler for all of the latest programming and room locations.

SEATING

Seating for all sessions is first-come, first-served and will be limited to the room's maximum capacity. ACRM suggests arriving early to your sessions to secure your choice seat.

COPYRIGHT CONSIDERATIONS

Any reproduction or distribution of conference content requires written permission of the original authors or content owners.

PHOTO RELEASE

Registration and attendance at, or participation in, the 96th Annual ACRM Conference, *Progress in Rehabilitation Research*, constitutes an agreement by the registrant to the use and distribution (both now and in the future) of the registrant or attendee's image or voice in photographs, videotapes, electronic reproductions and audiotapes of such events and activities to illustrate and promote the conference experience.

WELCOME FIRST-TIMERS & EARLY CAREER

FIRST-TIMERS

ICE-BREAKER BUTTONS

Use these buttons to easily spot other first-time attendees and help others find you, too! Available at the registration area, attach them to your lanyard, or pin to your name badge, lapel / jacket or to your tote bag.

EARLY CAREER

EARLY CAREERS

Look for the heart shape on name badges indicating an Early Career attendee.

ACRIV nference

NEW TO ACRM? DO NOT MISS THIS!

Special event for ACRM leaders and first-timer & early career attendees

"WELCOME to ACRM!" TUE 3:30 - 4:30 PM Continental Foyer, Lobby Level

Come to this casual "meet & greet" and hear about opportunities for networking and collaboration within the organization. Meet the ACRM Community Group and Committee Chairs, the Editors-in-Chief of the Archives of PM&R, and learn how to get involved at ACRM. You are needed to help advance the field and you can boost your career at the same time — and it all starts here.

Don't leave early! At the end of this reception, join your colleagues for the opening Plenary, followed immediately by the EXPO OPENING Reception for more networking and unopposed time to visit the exhibits.

<<< Look out for ACRM AMBASSADORS —indicating ACRM leadership and/or long-time ACRM members. They are available to answers questions and help you make connections!

CALLING ALL ACRM MEMBERS!

There is a record number of first-timers here in Chicago, and we need your help as an ACRM Annual Conference veteran. The best way for you to help is simply to connect. If you see a first-timer, say hello! Introduce them to some of your contacts. Sit beside them in a plenary session. Not only will you be helping the first-timers, but you'll be building your own network and probably making a great new friend.

WELCOME FIRST-TIMERS

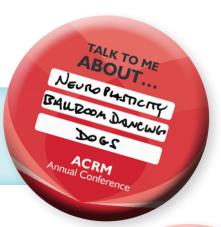

FUN STUFF

MORE ICE-BREAKER BUTTONS

Available at the ACRM registration desk area.

"Talk to me About" Button

Grab a Sharpie and fill-in the blanks tell us a little about yourself >>>

"This is my ____" Button

<<< How many ACRM conferences have you been to? Fill in the blank and let us know.

NEW MEMBER WELCOME PACKETS

Now there's even more to love. We want you to love ACRM as much as we love you. We made some FUN STUFF (even temporary tattoos) and key collateral for our newest ACRM members / first-time attendees.

If this is not your first time at ACRM, welcome back! These are available for you, too while supplies last. Visit the ACRM registration desk.

GLOSSARY OF ACRM TERMS

PRE-CONFERENCE 2.5 DAYS 3 – 5 NOV

The ACRM PRE-CONFERENCE program is comprised of longer instructional courses, workshops, and training to dive deep into special interest topics with continuing education credits. Pre-Conference registration is á la carte (or included with the WORLD PASS) and includes CME/CEUs.

INSTRUCTIONAL COURSES

Held before the Core ACRM Conference, Instructional Courses are either half-day (4 hours) or full-day (8 hours). Courses offer in-depth training or knowledge translation. CMEs are included. Not considered Instructional Courses and ticketed separately: these two-day brain injury courses: ACRM Cognitive Rehabilitation Training and the Academy of Certified Brain Injury Specialists (ACBIS) National Certification Program.

CORE CONFERENCE 3.5 DAYS 5 – 8 NOV

The ACRM CORE Conference refers to three and one half days full of evidence-based educational sessions (symposia), Plenaries, Featured Sessions, Oral Presentations, hundreds of scientific posters, a lively ACRM EXPO, dozens of ACRM community meetings, and nightly receptions.

ACRM COMMUNITY MEETINGS

These are the heart of ACRM and refer to meetings held by ACRM Interdisciplinary Special Interest Groups, Networking Groups, forming Groups, Task Forces, and ACRM committees. Dozens of meetings are held during the CORE conference - bright and early morning before the Plenaries and during lunch breaks. Most meetings are OPEN to all registered attendees (unless otherwise noted in the schedule). All registrants are encouraged to attend. There are many volunteer positions available. This is where the work happens — to collaboratively advance the science of rehabilitation and its translation into clinical practice to IMPROVE LIVES. Don't miss these opportunities — to meetup with colleagues who share interests, challenges, and goals, to make friends and to make a meaningful mark in the future of rehabilitation. www.ACRM.org/meetings19

CHAT WITH THE EXPERTS

"Chat with the Experts" is an exciting series designed to connect you with leading experts for specific topics. Bring your burning questions or explore new topics of interest. This all happens in the ACRM EXPO in between educational sessions.

LAUNCHPAD

LaunchPad is a rehabilitation technology innovation competition developed by the ACRM Technology Networking Group. The competition will be held on Tuesday afternoon 5 November.

SYMPOSIUM*

Symposia are 75 minute-educational sessions, presented by professionals with expertise in the specific topic areas. More than 200 symposia sessions are held during the CORE conference within nine different blocks of concurrent sessions.

SPECIAL SYMPOSIUM*

Identified by the ACRM Program Committee **SPECIAL SYMPOSIA** refer to at least one symposium in each block of concurrent sessions that has an extra-wide appeal in a certain track or tracks.

PLENARIES

Plenary sessions are the only unopposed educational sessions — scheduled to open up each day of the CORE conference with hot topics of interest for all attendees. Faculty and topics for Plenaries II, III, and IV are selected and invited by the ACRM Program Committee. Plenary I is the John Stanley Coulter lecturer Award winner.

FEATURED SESSIONS

Not quite plenaries, but no less exciting, the ACRM Program Committee created two opposed Featured Sessions offering a choice between two huge topics: (I) Federal Funding and (2) Scamabilitation.

ORAL PRESENTATION OF SCIENTIFIC PAPERS*

Oral presentations of scientific paper sessions are comprised of 3 (or 4) in one session and are grouped by topic area. Full abstracts of all scientific papers and

posters are published in the online pages of the October issue of the ACRM scientific journal, *Archives of Physical Medicine and Rehabilitation* and are fully searchable and citable at archives-pmr.org.

POSTER SESSIONS*

Hundreds of scientific posters will be on display. Full abstracts of all scientific papers and posters are published as an online supplement to the November issue of the ACRM scientific journal, *Archives of Physical Medicine and Rehabilitation* and are fully searchable and citable at archives-pmr. org. Posters for late-breaking research are scheduled to appear in the December issue.

POSTER GRAND ROUNDS

These are moderated walking tours of four selected award-winning scientific posters. Each poster author will briefly lecture about the key points of their study and answer questions.

LEARNING CENTER

Held during program breaks, the Learning Center provides the chance to learn about new products and product research from featured exhibitors. See product demonstrations and get answers you need to make informed purchasing decisions. No need to register. Just come to the ACRM EXPO Learning Center area.

GALA

The HENRY B. BETTS AWARDS DINNER

& GALA is held the night of Thursday, 7 November. This event honors and celebrates recipients of prestigious ACRM awards, recognizing outstanding contributions to the field and service to ACRM. This favorite event combines dinner, award presentations followed by dancing. Open to all for dancing after dinner and awards.

* = Selected by the ACRM Program Committee from the Call for Proposals.

For selection criteria www.ACRM.org/submit.

SCIENTIFIC PAPERS & POSTERS

ELECTRONIC ACCESS

IN ARCHIVES

Full abstracts of all scientific papers and posters are published as an online supplement to the October issue of the ACRM scientific journal, Archives of Physical Medicine and Rehabilitation and are fully searchable and citable at archives-pmr.org. Posters for latebreaking research are scheduled to appear with the December issue.

IN THE APP & ONLINE PROGRAM

Paper and poster titles and presenters are also identified in the free ACRM App. To view in the APP, tap "Posters" on the main screen.

POSTER AWARDS

The prestige, the honor, ACRM POSTER award-winners get published & get exposure...

All posters are reviewed by the Poster Awards Committee and go through a structured review process to select the "best of the best."

ACRM AWARDS

- » ACRM Poster 1st Place
- » ACRM Poster 2nd Place
- » ACRM Poster 3rd Place

BIG THANKS to ACRM Poster Subcommittee Chair Yelena Goldin, PhD, JFK Johnson Rehabilitation Institute, for her unending dedication and leadership. MUCH GRATITUDE also to the entire Poster Subcommittee.

ACRM SPECIAL INTEREST / NETWORKING GROUP POSTER AWARDS

- » Brain Injury Interdisciplinary Special Interest Group David Strauss, Ph.D. Memorial Award
- » Brain Injury Interdisciplinary Special Interest Group Early Career Best Poster
- » Brain Injury Interdisciplinary Special Interest Group Deborah Lee Price Girls and Women with ABI Task Force Poster Award
- » Spinal Cord Injury Interdisciplinary Special Interest Group Early Career Poster Award
- » Spinal Cord Injury Interdisciplinary Special Interest Group Best Poster
- » Stroke Interdisciplinary Special Interest Group Early Career Poster Award
- » Stroke Interdisciplinary Special Interest Group Outstanding Scientific Poster Award
- » Stroke Interdisciplinary Special Interest Group Newsworthy Poster of the Conference

American College of Occupational & Environmental Medicine (ACOEM) BOOTH #423

The American College of Occupational and Environmental Medicine (ACOEM) was founded in 1916 and is the preeminent physician-led organization that champions the health of workers, the safety of workplaces, and quality of environments. http://www.acoem.org

American Stroke Association BOOTH #223

The American Stroke Association is a relentless force for a healthier world with fewer strokes. Get With The Guidelines - Stroke is its in-hospital program for improving stroke care by promoting consistent adherence to the latest scientific-treatment guidelines. Since 2003, our database consists of more than five million patient records. http://www.strokeassociation.org

Basic Home Infusion BOOTH #410

Basic Home Infusion is a national intrathecal pump management and home infusion company. Specializing in only intrathecal therapies, BHI provides refills and management of implanted pumps for both spasticity and chronic pain patients. http://www.basichomeinfusion.com

Baylor Scott & White Institute for

Rehabilitation BOOTH #508

Baylor Scott & White Institute for Rehabilitation provides a continuum of care for the most challenging and medically complex patients, including those with traumatic brain injury, spinal cord injury, and other conditions. Offering inpatient rehabilitation, outpatient therapy and home health services, patients can return to independent and productive lifestyles. http://www.BSWRehab.com

BIODEX

Biodex Medical Systems, Inc. BOOTH #312

Based on decades of research showing the power of music in treating Parkinson's disease and other movement disorders, Biodex brings Music-Assisted Therapy to the Gait Trainer™ 3. Music therapist-informed compositions, biofeedback, and repetition are together for the first time to enhance neuroplasticity, facilitate correct gait kinematics and recover lost movement. http://www.biodex.com/rehab

Bionic Prosthetics and Orthotics BOOTH #228

Bionic Prosthetics and Orthotics is a premier provider of orthotic and prosthetic services. Bionic was founded in December 2007, with ten offices across Northern Indiana and Chicagoland area, Bionic is a fully accredited Orthotic and Prosthetic facility. Bionic employs approximately 15 Certified state licensed practitioners, representing expertise in all specialties. http://www.bionicpo.com/

BIONIK

InMotionRobots™

BIONIK Inc. BOOTH #407

BIONIK empowers the world's leading rehabilitation teams with data-driven, robotic therapy solutions that transform the neurorecovery journey to harness hope and provide proven, better outcomes. www.bioniklabs.com

Brain Education Strategies & Technology BOOTH #225 Brain Education Strategies & Technology (BEST) develops, researches, implements and disseminates best practices for apps and training for the benefit of people with conditions that affect the brain. The BEST Suite of apps includes apps for energy/fatigue management, goal setting, and identifying and accessing compensation strategies for everyday activities. http://bestconnections.org

Brain Injury Association of America BOOTH #220

The Brain Injury Association of America (BIAA) is the country's oldest and largest nationwide brain injury advocacy organization. Our mission is to advance awareness, research, treatment, and education and to improve the quality of life for all people affected by brain injury. http://www.biausa.org

Brooks Rehabilitation BOOTH #411

Brooks Rehabilitation has served the Southeast for more than 45 years. Our system of care includes one of the nation's largest inpatient rehabilitation hospitals, skilled nursing, assisted living, memory care, home health, outpatient clinics, community programs, a research division and a PMR physicians practice. www.brooksrehab.org

California Rehabilitation Institute BOOTH #318

A partnership of Cedars-Sinai, UCLA Health and Select Medical, California Rehabilitation Institute provides patients with the latest acute inpatient rehabilitation care. With 138 private suites, we are the largest physical medicine and rehabilitation hospital of its kind on the West Coast providing excellence in clinical care and research. http://Californiarehabinstitute.com

CARF International BOOTH #313

Founded in 1966, CARF has been enhancing the quality of services in medical rehabilitation through standards reflecting best practices and leadership in the field internationally. CARF focuses on helping providers implement an internal process of continuous quality improvement and personcentered services to achieve outcomes desired by persons served. http://www.carf.org

Carolinas Rehabilitation

Carolinas Rehabilitation at Atrium Health

BOOTH #427

Atrium Health's Carolinas Rehabilitation has the technology, specialists and resources to help patients achieve the highest level of functioning and get them home as quickly as possible. With five inpatient hospitals and more than 20 outpatient physician and therapy locations, we provide complete, comprehensive, rehabilitative care. http://www.atriumhealth.org/rehabilitation

Center for Large Data Research & Data Sharing in

Rehabilitation BOOTH #206

The Center for Large Data Research and Data Sharing in Rehabilitation is building rehabilitation research capacity by increasing the quantity and quality of rehabilitation outcomes research using large datasets. The CLDR is expanding its mission to include a focus on data sharing and archiving information from completed rehabilitation research studies. https://www.utmb.edu/cldr

Children's Healthcare of Atlanta Rehabilitation

Services BOOTH #321

Children's Healthcare of Atlanta offers rehabilitation services in their acute inpatient rehab unit, day rehab program, and 8 outpatient rehab facilities throughout metro Atlanta for patients ages birth to 21. Visit www.choa.org/rehab for more information and how to contact us. www.choa.org/rehab

Cognivue Inc. BOOTH #510

World's first FDA-Cleared computerized test of cognitive function. Cognivue is a personalized, consistent and reliable way to receive an overall assessment of your cognitive health. This intuitive test automatically adapts to the visual and motor ability of the user. It is often used as a baseline for future tests. http://www.cognivue.com

CreateAbility Concepts, Inc. BOOTH #421

Assistive technology resulting from CreateAbility's evidence-based research includes sensor-based systems and apps aimed at reducing fatigue through addressing depression, reducing the mental effort to stay on schedule, manage energy and maintain healthy activities. Our solutions combined with the efforts of rehabilitation professionals helps to rebuild and sustain healthy lives. http://www.createabilityinc.com

Cubii BOOTH #406

Cubii was created to help people keep moving & feel better as they live, work, recover and age. Cubii is a seated compact elliptical delivering low impact, non-weight bearing movement. Compact to fit every space. Safe and effective choice for patients. Cubii, the game changer for fitness, wellness & rehab. http://www.mycubii.com

Defense and Veterans Brain Injury Center

(DVBIC) BOOTH #324

As the traumatic brain injury (TBI) Pathway of Care manager within the Military Health System (MHS), the Defense and Veterans Brain Injury Center (DVBIC) promotes state-of-thescience care from point-of-injury to reintegration for service members, veterans, and their families to prevent and mitigate consequences of mild to severe TBI. http://Dvbic.dcoe.mil

Ekso Bionics BOOTH #323

Ekso Bionics is a leading developer of exoskeleton solutions that amplify human potential by supporting strength, endurance and mobility across medical and industrial commercial applications. Featured this year at ACRM, EksoGT works with clinicians to promote correct movement patterns in all phases of recovery.

http://www.eksobionics.com

Encompass Health BOOTH #203

Encompass Health offers facility-based and home-based patient care through its network of inpatient rehabilitation hospitals, home health agencies and hospice agencies. With a national footprint that spans more than 131 hospitals and 280 home health & hospice locations, the Company is committed to delivering high-quality care across the post-acute continuum. http://encompasshealth.com

EXOATLET

ExoAtlet BOOTH #227

ExoAtlet is a company that designs an exoskeleton with the intended use for SCI and stroke individuals. http://www.exoatlet.com

Facing Disability.com BOOTH #221

Facing Disability.com was created to connect families who suddenly have to deal with a spinal cord injury with other people like them. It has over 1,500 videos of family members answering real-life questions about how they cope with a spinal cord injury. http://FacingDisability.com

Foundation for PM&R BOOTH #219

The Foundation for PM&R is a nonprofit organization that provides seed money for innovative physiatric research that will lead to larger studies in comparative effectiveness, outcomes assessment, and quality improvement to prove efficacy and advance the science of restoring health and improving function for individuals with disability. http://www.foundationforpmr.org

Fourier Intelligence BOOTH #326

Fourier Intelligence is an innovative global technology company focusing on developing, manufacturing and marketing of rehabilitation robotics and exoskeleton. We have our global hub in Singapore, our main R&D and production in Shanghai and a joint research lab with the University of Melbourne in Australia. http://www.fftai.com/

GivMohr Corporation BOOTH #518

The GivMohr® Sling is a patented positioning device developed to support the flaccid upper extremity during activities in standing and ambulation. It was designed in a collaborative effort between Victoria Givler, OTR and Paul Mohr, PT. Benefits include reducing shoulder subluxation and related pain while improving balance and gait. http://givmohrsling.com

g.tec neurotechnology GmbH BOOTH #420

Since 1999 g.tec develops and produces biosignal amplifiers and software for biosignal recording and real-time signal processing. As a world leader in the field of BCls, g.tec develops medical devices for stroke rehabilitation (www.recoverix.at), consciousness assessment of patients with DOC (www.mindbeagle.at) and functional brain mapping (www.cortiq.eu). http://www.gtec.at

Goal Manager BOOTH #425

Goal Manager is a remote access cloud-based system ideal for enabling collaborative working across multi-disciplinary teams from different locations. It organizes and analyses assessment and goal data to be accessible across disciplines and to streamline the goal setting process, integrating SMART objectives, Goal Attainment Scaling, and the ICF. http://www.goalmanager.co.uk

Galileo Therapy BOOTH #305

Galileo is an essential rehab training tool. It's Mechanostimulation is unlike other muscle devices inducing muscle contractions differently through the "involuntary" stretchreflex instead of traditional training. Galileo's high-repetition therapy in a short time is versatile for everyone, easy to setup and enhances functional outcomes and neuroplasticity. It's a game-changer! http://stimdesigns.com

Hocoma/Motek BOOTH #412

Hocoma and Motek are the global leaders in robotic and sensorbased devices for functional movement therapy and virtual reality technology for research and rehabilitation. We develop innovative therapy solutions working closely with leading clinics and research centers. Our products are applied successfully in renowned clinics and research institutes worldwide. http://www.hocoma.com

Hope Network Neuro Rehabilitation BOOTH #224

Hope Network Neuro Rehabilitation is a leading provider of post-hospital, community-based rehabilitation services and specialized medical care for those who have sustained a brain or spinal cord injury, suffered a stroke, or have other neurological conditions. For more information, contact us at 855.407.7575 or www.hopenetwork.org/neuro-rehab http://www.hopenetwork/neuro-rehab.org

LearningRx BOOTH #310

LearningRx is the largest network of brain training centers in the world. LearningRx trainers deliver mental exercises to help clients improve cognition and remediate cognitive deficits associated with aging, learning disabilities, and brain injury. Stop by for research, brain training demos, cognitive test information, and global licensing or franchising options. http://www.LearningRx.com

International Brain Injury Association BOOTH #623

The International Brain Injury Association (IBIA) is dedicated to the development and support of multidisciplinary medical and clinical professionals, advocates, policy makers, consumers and others who work to improve outcomes and opportunities for persons with brain injury. http://www.internationalbrain.org

Lite Run, Inc BOOTH #520

Lite Run is developing products to restore and enhance human mobility and enable the disabled and injured to walk and run again. The LiteRun™ System is listed with the FDA and recently released to the market. Clinical studies have been completed and are in progress. literun.com

Ipsen Biopharmaceuticals, Inc. BOOTH #426

Ipsen Biopharmaceuticals is dedicated to providing hope for patients whose lives are challenged by difficult-to-treat diseases, focusing its resources, investments and energy on discovering, developing and commercializing new therapeutic options in oncology, neurosciences and rare diseases. For more information, please visit www.ipsenus.com. http://ipsenus.com

LongGood BOOTH # 222

LongGood is NO.1 rehabilitation company in Taiwan and has developed total solution that consists of training and evaluation programs. Our system is designed by professionals and has been used widely in medical centers and care facilities. Meanwhile, we have successfully entered the markets worldwide, like China, Singapore, and so on. http://en.longgood.com.tw/

Kessler Institute for Rehabilitation BOOTH #315

Kessler Institute, ranked as one of the nation's top rehabilitation hospitals for 25 years by U.S. News, is one of only seven NIDRR-designated Model Systems for the treatment/research of traumatic brain and spinal cord injuries. That same pioneering care distinguishes Kessler's stroke, neurologic, orthopedic/musculoskeletal, amputation, cancer and cardiac recovery programs. http://www.kessler-rehab.com

Mary Free Bed Rehabilitation Hospital BOOTH #504

Mary Free Bed Rehabilitation Hospital is a 167-bed, free-standing, rehabilitation hospital committed to helping patients regain independence following serious injury or illness. Comprehensive services and an exclusive focus on rehabilitation enables specialty physicians and staff to achieve outstanding clinical outcomes. http://www.maryfreebed.com

MASS Rehab Inc.

MASS Rehab Inc. BOOTH #527

We're a Physical Therapy supplier of effective, functional gait and balance equipment with focus on comfortable harnesses fitting a wide range of body shapes and sizes. We have overhead, fixed rails and freestanding support modules to maximize therapy for both therapist and patient. Manufactured in the USA. http://www.rehabharness.com

Mayo Clinic BOOTH #404

Mayo Clinic is the largest integrated group practice in the world. Mayo Clinic Rehabilitation Medicine Center is a place for discovery, translation and application of rehabilitation sciences. Inpatient and outpatient rehabilitation care enhances functional ability and quality of life provided by a multidisciplinary practice. http://www.mayoclinic.org

MediTouch BOOTH #209

NPG Medical, LLC - Exclusive U.S. Distributor for MediTouch. http://NPGMedical.com

MERZ NEUROSCIENCES"

Merz Neurosciences BOOTH #506

Merz Neurosciences is dedicated to providing leading therapeutic treatment options for patients. Our focus on advancing neurotoxin technology has given way to a clinically-proven and time-tested therapy that's helped more than three million patients worldwide for various conditions. That number continues to grow. http://www.merzusa.com/neurosciences/

Model Systems Knowledge Translation Center

(MSKTC) BOOTH #218

The Model Systems Knowledge Translation Center (MSKTC) is a federally-funded center that offers free factsheets, videos, slideshows, and other resources for people living with spinal cord injury (SCI), traumatic brain injury (TBI), and burn injury (Burn). http://www.msktc.org

Multiple Sclerosis Foundation BOOTH #226

The Multiple Sclerosis Foundation, known in the MS community as MS Focus, is a nonprofit organization focused on providing free services that address the critical needs of people with MS and their families, helping them maintain the best quality of life. http://www.msfocus.org

National Center of Neuromodulation for Rehabiliation at

MUSC BOOTH #208

The National Center of Neuromodulation for Rehabilitation is an infrastructure resource center funded by NIH (NCMRR). We are at the Medical University of South Carolina. Our primary goal is to develop and support a community of rehabilitation researchers who apply neuromodulation techniques such as brain stimulation and operant conditioning. http://chp.musc.edu/research/nc-nm4r

NEOFECT

NEOFECT USA, INC. BOOTH #306

The Rapael Smart Glove is a rehabilitative device that monitors hand movements through playing game-like exercises. It is designed to promote brain re-learning for active hand movement and function. Patients practice goal-oriented and task-specific motor skills with increased repetition while being stimulated in an environment conducive to hand rehabilitation. http://www.neofect.com

NeuLife Rehab BOOTH #322

NeuLife Rehab is one of the largest residential CARF accredited post-acute programs in the country, specializing in Acquired Brain and Spinal Cord Injuries and other neurological related challenging diagnoses including but not limited to: Stroke, Multiple Sclerosis, Parkinsons, and Multiple Traumas including complex orthopedic injuries. http://www.neuliferehab.com

Neuro Rehab VR BOOTH #603

Neuro Rehab VR develops fun and engaging virtual reality exercises for neurological and physical therapy recovery, leveraging breakthroughs in neuroplasticity. VR exercises are designed with physical therapists and customized for each patient's needs and targeted therapy plan with the ability to measure, quantify, and track progress with data feedback. https://www.neurorehabvr.com/

NeuronUp BOOTH #417

NeuronUP is a 3-in-I online tool for professionals working in neurorehabilitation and cognitive stimulation therapies including an online library of thousands of customizable activities, a patient management system and therapy management tool allowing you to quickly create therapy sessions to be done at home or in the clinic. http://www.neuronup.com

NIH National MR3 Network BOOTH #204

MR3 Network is a group of six centers nationwide that promotes multidisciplinary collaborations, develops research opportunities and therapeutic strategies, and improves the lives of people with disabilities. The network provides expertise, technology and resources to support clinical and translational research in a wide range of disciplines and disease focus areas. http://ncmrr.org/

ottobock.

Ottobock BOOTH #207

All around the world, the Ottobock name stands for high-quality and technologically outstanding products and services in the field of medical technology. The goal of helping to restore mobility for people with disabilities — and protect the mobility they have retained — stands behind all of our company's products. http://professionals.ottobockus.com/Orthotics/Custom-Orthotics/KAFO-KO--Knee-Ankle-Foot-Orthosis-Knee-Orthosis/C-Brace/c/4036

OxyHealth, LLC BOOTH #613

OxyHealth is the world's leading provider of hyperbaric chambers. Presently, OxyHealth is the pioneer of the industry with over 15,000 chambers in use, more than all other providers combined. OxyHealth continues to remain at the forefront of superior performance, quality and cutting-edge design concepts that far exceed industry safety standards. http://www.oxyhealth.com

Parker Hannifin BOOTH #308

Indego® is an exoskeleton which allows gait impaired individuals to stand up and walk again thanks to powered hip and knee joints in conjunction with sensor technology and sophisticated control strategies. Indego can be used as a therapy tool or as a mobility assistive device for individuals. http://www.indego.com

ProtoKinetics Gait Analysis Walkways BOOTH #413

ProtoKinetics Zeno Walkway and PKMAS software are a best in class gait analysis platform. They collect and analyze temporal-spatial and pressure data along with unique metrics, such as the Symmetry of Propulsion. ProtoKinetics solutions and their associated applications are used for clinical evaluation, measuring patient progress, clinical research and education. http://www.protokinetics.com

Pt Pal BOOTH #424

Pt Pal is an app for patients connected to a clinician's portal. Clinicians send interactive rehabilitation programs and receive real-time feedback/data on patient's adherence/progress. Pt Pal manages exercises, surveys (w/ auto-scoring), activities, and education across departments, giving patients a single interface for self-care tasks, and a single platform for hospitals. http://www.ptpal.com

Rancho Los Amigos National Rehabilitation

Center BOOTH #408

Rancho Los Amigos National Rehabilitation Center is world renowned in the field of medical rehabilitation, providing quality care for people with a wide range of disabilities. Rancho's mission is to provide patients who have experienced life-altering injury or illness with superior medical and rehabilitative services in a culturally sensitive environment. http://www.rancho.org

Rehab Innovations - UE Ranger BOOTH #418

The UE Ranger – providing a harmonious blend of upper extremity healing support and functional recovery. In low tech fashion, fluid mobility becomes a natural medium to personalize patient's specific needs. Acute to Chronic - Ortho to Neuro - Clinic to Home, we have removed the impedances to achieving optimal. http://www.ueranger.com

Rehabilitation Hospital of Indiana BOOTH #403

RHI provides acute inpatient rehabilitation services, outpatient continuum and community reintegration services for adults with brain injury, stroke, spinal cord injury, and other disabling conditions. RHI is dedicated to assisting individuals in achieving their highest potential with a commitment to the values of respect, independence, quality service, innovation, and service to the community. http://www.rhin.com

Restorative Therapies Inc. BOOTH #211

Restorative Therapies provides innovative FES therapy systems to help people with neurological impairments or critical illness achieve their full recovery potential. Our systems provide stimulation to upper and lower extremities and trunk muscles. Help patients achieve functional goals with Xcite our new task specific system with easy-to-use pre-programmed activities. http://www.restorative-therapies.com/home

ReWalk Robotics BOOTH #511

ReWalk Robotics is an innovative company that designs, develops and commercializes powered solutions which provide gait training and mobility for individuals with lower limb disabilities. Our mission is to fundamentally change the Quality of Life for individuals with lower limb disability through the creation of market leading robotic technologies. http://www.rewalk.com

RUSK REHABILITATION AT NYU LANGONE

Rusk Rehabilitation at NYU Langone Health

BOOTH #304

For more than 25 years, ranked among the top 10 in the country and #1 in New York State by U.S. News & World Report, Rusk Rehabilitation continues to set the standard in rehabilitation care for every stage of life and for every phase of recovery. http://nyulangone.org/rusk

Rx**Function**™

RxFunction, Inc BOOTH #524

RxFunction, Inc. is a medical device company and the creator of Walkasins® external lower limb sensory neuroprosthesis. Walkasins is clinically proven to improve gait and balance, and to reduce the risk of falls in individuals with sensory peripheral neuropathy. Visit www.RxFunction.com to learn more. http://www.rxfunction.com

Saol Therapeutics BOOTH #405

Saol Therapeutics (pronounced "Sail") is a privately-held, specialty biotech pharmaceutical company with operations in both Roswell, GA and Dublin, Ireland. Saol, focused on neuroscience (spasticity) and rare disease, is committed to providing and advancing therapeutic options for patients and the physicians treating these populations. For more information, visit www.saolrx.com. http://www.saolrx.com

Stoelting BOOTH #230

Stoelting is a publisher of psychological assessments and psychotherapeutic products and has been for over 130 years. We enjoy working with clinicians to fit them with tests and providing ongoing support to meet their assessment needs for clinical, research and education purposes, allowing them to provide evidence-based assessment and treatment. http://stoeltingco.com

Shepherd Center BOOTH #517

Shepherd Center, in Atlanta, Georgia, is a not-for-profit hospital specializing in medical treatment, research and rehabilitation for people with spinal cord injury, brain injury, multiple sclerosis, and spine and chronic pain. Shepherd Center is ranked by U.S. News & World Report among the top 10 U.S. rehabilitation hospitals. https://www.shepherd.org

Tactile MEDICAL*

Tactile Medical BOOTH #422

Tactile Medical is a leader in developing and marketing at-home therapy devices for the treatment of lymphedema and chronic venous insufficiency. https://twitter.com/TactileMedical

Shirley Ryan Ability Lab BOOTH #210

The Shirley Ryan AbilityLab, formerly the Rehabilitation Institute of Chicago (RIC), is the nation's #I-ranked provider of comprehensive physical medicine and rehabilitation care to patients from around the world and is the leader in research and development of the cutting-edge treatments and technologies in its field. http://www.sralab.org

Tekscan, Inc. BOOTH #214

Tekscan manufactures a range of pressure assessment and clinical/research evaluation tools. Our unique systems use thin, flexible, high-resolution sensors to observe gait abnormalities, determine orthotic/wheelchair cushion efficacy, identify potential ulceration areas, and more. https://www.tekscan.com/

Spaulding Rehabilitation Network BOOTH #505

Spaulding Rehabilitation Hospital is nationally ranked by US News & World Report and is the official teaching hospital of Harvard Medical School. Our network provides a full continuum of rehabilitative care, with six inpatient facilities and 23 outpatient centers. Our mission is to provide exceptional clinical care, promote medical education, and advance research. http://www.spauldingrehab.org

A donor-supported nonprofit

The Amputee Coalition BOOTH #320

The Amputee Coalition is the leading national, donor-supported, non-profit organization serving the limb loss community. Our mission is to reach out to and empower those affected by limb loss to reach their full potential through education, support, and advocacy, and to promote limb loss prevention. http://amputee-coalition.org

The College of St .Scholastica -tDPT online

BOOTH #229

The transitional Doctor of Physical Therapy program at CSS offers working clinicians degree parity in a 100% online format. Designed with the needs of practicing physical therapists in mind, our program is streamlined to offer clinicians a bridge up to DPT in just 6 courses/16 credits. http://www.css.edu/applyTDPT

The Stens Corporation BOOTH #231

The Stens Corporation is recognized nationally as the leader in biofeedback, neurofeedback, and QEEG professional certificate trainings as well as the distribution of all major lines of biofeedback instruments and software. We are committed to providing innovative, cutting-edge products and unique, hands-on training to practitioners throughout USA and Canada. http://www.stens-biofeedback.com

Touro Rehabilitation Center BOOTH #217

Touro Rehabilitation is the only hospital in Louisiana accredited in several subspecialty areas by the Commission on Accreditation of Rehabilitation Facilities (CARF). Touro provides interdisciplinary rehabilitation to physically challenged individuals to prevent or minimize impairment and disability, helping them enjoy life with highest degree of independence. http://www.touro.com/rehab

Virtualis VR Corp BOOTH #327

Virtualis is a technology company specializing in Virtual Reality solutions for assessment and rehab of balance and mobility disorders. Our comprehensive solutions treat a variety of patient populations including but not limited to: neurological, vestibular, concussion, orthopedic, sports medicine, post-surgical, spinal cord injury, chronic pain, upper extremity diagnosis and cognitive deficits. http://www.virtualisvr.com

WellStar

WellStar BOOTH #409

WellStar Health System, the largest health system in Georgia, is known nationally for its innovative care models, focused on improving quality and access to healthcare. Staying ahead of the curve in technology has enabled WellStar to be leaders in both the diagnosis and treatment of an extensive array of health conditions. http://www.wellstar.org

Wyss Institute for Biologically Inspired

Engineering BOOTH #522

The Wyss Institute at Harvard University creates transformative technological breakthroughs by engaging in high-risk research, crossing disciplinary and institutional barriers, to develop new engineering solutions for healthcare, energy, robotics, and manufacturing. Our technologies are translated into commercial products and therapies through collaborations with clinical investigators, corporate alliances, and new startups. http://www.wyss.harvard.edu

Zero Gravity Skin BOOTH #514

Zero Gravity Skin is a leading company and one of the biggest wholesalers for medical devices for skin rejuvenation and pain management that are FDA approved and based on NASA Technology. https://www.zerogravityskin.com

LECTURE LUNCHEONS

NEED A LUNCHEON TICKET?

Advance tickets required. See registration desk. No admittance at the door.

Yes, you do need a ticket if you wish to attend these. Tickets may still be available. Hurry & see the friendly folks at ACRM Registration Desk.

COMPLEMENTARY INTEGRATIVE REHABILITATION MEDICINE **LECTURE** LUNCHEON

Building the Evidence through Research: Informing **Decisions in Integrative Health** #637663

PRESENTER: David Shurtleff, PhD, National Center for Complementary and Integrative Health (NCCIH)

LOCATION: Continental B, Lobby Level

12:00 - 1:15 PM

WED

It is widely recognized that our health care system does too much of some things, and too little of others. Learning what works and for whom — finding the true balance between benefit and harm — is the charge to the biomedical research enterprise. Negative findings are as important a product of evidence-based medicine as the positives. Two examples will be explored: Care of the elderly and back pain management.

LECTURE LUNCHEON

WED

12:00 - 1:15 PM

SPINAL CORD J INTERDISCIPLINARY

SPINAL CORD

Restoration of Motor Function in Persons with Chronic Spinal Cord Injury Via Acute Intermittent Hypoxia #1009403

PRESENTER: William Rymer, MD, PhD, Director of Single Motor Unit Laboratory, Shirley Ryan AbilityLab

LOCATION: Continental C, Lobby Level

This presentation will review what we have learned about the effects of acute intermittent hypoxia (AIH) from studies on the neural control of breathing and its restoration after damage to neural or musculoskeletal elements engaged in respiration. In particular, we will show that following AIH, substantial enhancements of motor outflow arise in both the neural pathways regulating breathing, and also in non-respiratory motor systems, such as major limb muscles in both upper and lower extremities. Finally, we will review briefly our own findings about potential therapeutic applications of AlH techniques in humans with injury to thoracolumbar or cervical cord.

LECTURE LUNCHEON

THU

12:00 - 1:15 PM

NEURODEGENERATIVE DISEASES

Neurodegenerative Diseases and Geriatric Rehabilitation **Networking Group Special Luncheon Symposium** #617753 PRESENTER: Lisa Barnes, PhD, Professor in the Rush Alzheimer's Disease Center, Rush University Medical Center

LOCATION: Continental B. Lobby Level

This Lecture Luncheon presents the cross-cutting research of Dr. Lisa Barnes, the Alla V. and

Solomon Jesmer Professor of Gerontology and Geriatric Medicine in the department of Neurological Sciences at Rush University Medical Center, and a cognitive neuropsychologist in the Rush Alzheimer's Disease Center. Dr. Barnes received her PhD from the University of Michigan and completed an NIMH postdoctoral fellowship in cognitive neuroscience at the University of California, Davis, before joining the faculty at Rush Medical College in 1999. ... LUNCHTIME LECTURE

FRIDAY

II:15 AM - 12:30 PM

CROSS-CUTTING

U.S. News & World Report's Best Hospitals for Rehabilitation: **Upcoming Changes to Ranking Methodology** #1009276

PRESENTER: Ben Harder, Chief of Health Analysis and Managing Editor, U.S. News & World Report

LOCATION: International Ballroom, Second Floor

In summer 2020, the U.S. News Best Hospitals for Rehabilitation rankings will for the first time incorporate patient outcomes and other objective measures into its evaluation of the nation's 1,000-some inpatient rehabilitation facilities and rehabilitation units. In this session, U.S. News' methodology head will describe how his team will incorporate data from two sources, the CMS IRF Compare website and the American Hospital Association Annual Survey Database. Discussants will respond to U.S. News' announcement, and audience members will also have the opportunity to provide input into how U.S. News should evaluate hospitals' performance in PM&R... More >>> Online Program & App

Want to Attend? Priority "front row" seats are reserved for registrants who purchase a luncheon ticket; however, additional seating without lunch is available free of charge on a first-come/first-served basis to attendees who register for the lecture only.

ACRM INTERNATIONAL REAC

WELCOMING
 COLLABORATIVE
 DIVERSE
 CONGENIAL

The ACRM International **Networking Group** is an active community of rehabilitation professionals from around the world whose mission is to communicate and collaborate across international boundaries to advance rehabilitation research and evidence-based practice.

This group fosters international collaborations among rehabilitation researchers, consumers, and providers through multi-site research; disseminates evidence-based practice recommendations through active participation in the ACRM Annual Conference; and develops educational materials.

This interdisciplinary group of ACRM members and rehabilitation stakeholders is committed to evidence-based practice and policy that advances the organization, delivery, and financing of rehabilitation services. The International Networking Group builds on the ACRM commitment to interdisciplinary research that reaches across health conditions and the continuum of rehabilitation care.

First-timers are welcome!

COMMUNITY GROUP LEADERS

Most ACRM Community Groups are comprised of task forces focused on specific topics or projects. As an ACRM member (you received a six-month trial ACRM membership with your conference registration) you may participate in existing task forces or propose and lead the development of new ones. **See the meetings list on pages 14 – 15** and don't miss the meetings of most interest to you.

INTERDISCIPLINARY SPECIAL INTEREST GROUPS

The longest-running of the community groups, don't let their abbreviations scare you — new members are wanted & welcomed

BRAIN INJURY INTERDISCIPLINARY Kristen Dams-O'Connor, INTERDISCIPLINARY SPECIAL INTEREST GROUP PhD; Mount Sinai Brain Injury SPECIAL INTEREST GROUP Research Center **BI-ISIG SPINAL CORD INJURY** SPINAL CORD INTERDISCIPLINARY
INJURY SPECIAL INTEREST G **INTERDISCIPLINARY SPECIAL** Jeanne M. NETWORKING GROUPS

Get involved. Each ACRM Networking Group has vision casts & plans to help bring research to practice faster & IMPROVE LIVES with your help...

YOU ARE WANTED HERE

There's no better place to participate in a diverse community of your peers and be recognized for your contributions to rehabilitation medicine. All members are encouraged to join and participate in the groups and task forces committed to the issues they care about most. Attend a meetings and/ or contact the appropriate chair to get started.

TIP: Use the ACRM Conferenence App to connect.

What happens at a community business meeting? Introductions of the groups' leadership, a review of Accomplishments and new projects for 2020 and vision casts. Surround yourself with all levels of professionals, many of whom are where you want to be in 5, 10, 20 years. Connect & join us—all together we are moving rehabilitation forward.

ACRM believes in the power of helping each other & encourages thoughtful + kind social media use

What's all this social media about?

Here's a super-quick primer and a glimpse at how ACRM is using social media to help make the rehabilitation research field a little smaller and to help advance our missions.

The power of social media can help us find each other all over the world. We can help motivate and inspire one another, we can answer each other's burning questions and quite possibly even make new friends for life. We see a beautful connected future with the help of these great (& free!) social media solar systems.

FLICKR: Photo archiving & sharing platform. Each ACRM community group has it's own photo album with member pictures and promotional "badge" graphics to use and to share. Go to the photostream: flickr.com/photos/acrm/

FACEBOOK: Follow ACRM pages, like and share updates and post your own thoughts, updates and questions to ACRM facebook pages. Facebook Groups (different from pages) can be OPEN to public or CLOSED.

LINKEDIN: The buttoned-up, more professional version of facebook. LinkedIn Groups allow closed conversations.

TWITTER: Real-time communication — short updates, photos and videos and brings the world of rehabilitation closer together through the use of hashtags.

YOUTUBE: Not just for "cat videos," YouTube is the "go to" social media video site YouTube channel has our full collection of community group webinars and other informative videos.

VIMEO: The more buttoned-up, professional video site, this is where ACRM posts and hosts all of its videos and allows the videos to embed on ACRM.org.

INSTAGRAM: Primarily a visual channel for sharing photos, short vids, and making connections with like-minded people and organizations.

TIP: Hear a Presenter say something thoughtprovoking? Quote them and post to LinkedIn, Twitter or Instagram with #ACRM

Tweeting? Instagramming? Here are some hashtags we have found to be popular. Try adding any of these like salt & pepper and seasonings to your salad. **Why use hashtags? What's the purpose?** Hashtags are like flags that can help your posts to be found. They can also be used just for fun #WeLoveHashTags as an example.

Hearing Matters

Assistive Technology for Rehabilitation

Help **improve rehabilitation treatment** with the inexpensive and easy-to-use **SuperEar**[®].

Hearing loss is nearly **three times more prevalent than vision loss** and a growing body of evidence suggests that hearing loss may contribute to cognitive and physical decline. Yet there are few equivalents to reading glasses for those with hearing loss; **SuperEar**® is the simple solution.

Encourage **healthy rehabilitation** and positive interactions with stress-free communication between individuals and their physicians & caregivers. Help reduce **re-admittance rates** and **facilitate compliance with CMS, MDS, and ADA Sec.1557** with the **SuperEar**®. Help eliminate the hassle and liability associated with expensive, custom hearing aids in the healthcare environment.

SuperEar® is championed by distinguished hospital and university systems and is found in many healthcare facilities; **assisted care**, hospitals, medical centers, **skilled nursing**, and private homes. The high quality **SuperEar®** is an affordable, efficient, and simple solution.

Call to talk with a representative about **Healthcare Direct** options. Mon-Thu 8am-4pm PST **1-800-247-5548** www.sonictechnology.com
