REHABILITATION MEDICINE

ACRM Cognitive Rehabilitation Training

14JAN2021

Individual Online Training Includes:

- **12 CME/CEUs**
- **Printed Manual (see Appendix)**
- **Certificate of Completion**

Multi-Seat License Includes:

- **12 CME/CEUs**
- **Printed Manual (see Appendix)**
- **Certificate of Completion**
- **25% OFF for groups of 25+ (pricing and discount valid for one year)**
- **Complimentary email announcement**
- **90-minute Q&A, with your group, hosted by authors/faculty**

OVERVIEW

Get 12 hours of continuing education credits with 24/7 access to a previously recorded two-day training synchronized with the original presentation slides. Review the guidelines presented at the training you attended or access the material online to learn at your own pace. It's the next best thing to being there!

TESTIMONIAL

“We believe that participating in the ACRM Cognitive Rehabilitation Training and using the evidence-based strategies will result in significantly better outcomes for your patients, their families, and your organization.” – Lance E. Trexler, PhD, FACRM, Cognitive Rehabilitation Manual Managing Editor

HOW THIS WORKS

For a rich learning experience, you can pause and resume and learn at your own pace, this Online Course includes:

- 12 hours of continuing education contact hours
- 24/7 access to a recorded Cognitive Rehabilitation Training
- Review previously recorded two-day training synchronized with the original presentation slides
- **THE MANUAL:** Printed copy of the *Cognitive Rehabilitation Manual: Translating Evidence-Based Recommendations into Practice*—\$150 value! (additional shipping and handling charges apply).

INVESTMENT OPPORTUNITIES

*all prices are subject to change without notice

- **ACRM Members, Individual Cost: \$295**

Includes:

- Six-month access to video recording of the two-day training
- Easy access at your own pace — take the course at your convenience and pace from any browser window
- THE MANUAL: Printed copy of the Cognitive Rehabilitation Manual: Translating Evidence-Based Recommendations into Practice—\$150 value! (additional shipping charges apply). Additional copies of the Manual may be purchased separately.
- Up to **12 Continuing Education contact hours**
- 5 disciplines
 - Occupational Therapists (AOTA)
 - Physical Therapists (ACCME – Non-MD CME)
 - Physicians (ACCME)
 - Psychologists (Non-MD CME)
 - Speech-Language-Hearing Therapists (ASHA)
- Certificate of Completion

- **Nonmembers, Individual Cost: \$395**

Includes:

- Everything listed above
- Plus 6-month introductory ACRM membership with access to all interdisciplinary special interest groups and networking groups, discount member rates on products and conference registration, and subscriptions to all members-only newsletters.

- **Multi-Seat License, Individual Cost: \$296.25**

- $\$395 \times 25\% \text{ discount} = \$296.25 \text{ each} \times 25 \text{ participants} = \$7,406.25$ minimum

- **The Manual for ACRM Members: \$125**

- The Manual — all 150 pages, including clinical forms — is a practical guide for the implementation of evidence-based interventions for impairments of executive functions, memory, attention, hemispatial neglect, and social communication. Available for purchase by caregivers and family members of brain injury patients.

- **The Manual for NonMembers: \$150**

AGENDA

Session 1: Overview of the Workshop and Introduction to the Manual (60 minutes) with Thomas F. Bergquist, PhD, ABPP-CN

Session 2: Attention and Memory (237 minutes) with Michael Fraas, PhD, CCC/SLP, CBIS and Thomas F. Bergquist, PhD, ABPP-CN

Session 3: Hemispatial Neglect (57 minutes) with Deirdre Dawson, PhD

Session 4: Hemispatial Neglect Case Example and Executive Functions (153 minutes) with Deirdre Dawson, PhD

Session 5: Social Communication (148 minutes) with Michael R. Frass, PhD, CCC_SLP

Session 6 (Bonus): Challenges of Reimbursement for Cognitive Rehabilitation (45 minutes) with Keith Cicerone, PhD, ABPP-Cn, FACRM and Donna Langenbahn, PhD, FACRM

DISCIPLINES

- Occupational Therapists (AOTA)
- Physical Therapists (ACCME – Non-MD Certificate of Participation)
- Physicians (ACCME)
- Psychologists (Non-MD CME)
- Speech-Language-Hearing Therapists (ASHA)

CONTINUING EDUCATION CREDIT

Educational Level: **Introductory/Intermediate**

Instructional Method: **Video Taped Lecture**

CME/CEU: **12 contact hours**

COMPLETION REQUIREMENTS: EVALUATION AND CME CERTIFICATES

Credit is only given to attendees that register for the course; successfully complete the entire course; evaluate and take the post-test after each session. At the end of the training, you will see a slide with a link/web address to the post-test system. You will receive an email after taking the test showing your score. You must pass with 80% accuracy. You may retake the test at any time.

After you have completed the entire course and the final post-test, you will find the link to evaluate and receive your certificate. In that email, you will be able to click on the link, evaluate, and print your certificate.

LEARNING OBJECTIVES

To support the attainment of knowledge, competence, and performance, the learner should be able to achieve the following objectives:

1. Use a decision-tree to assist in determining which type of cognitive rehabilitation to implement.
2. Describe techniques for improving attention and the steps involved in carrying out treatments.
3. Identify the general guidelines for the use of external memory strategies.
4. Describe a general algorithm and conceptual framework for structuring interventions for awareness, executive functioning, and behavioral / emotional self-regulation.

5. Discuss the evidence concerning the effectiveness of cognitive rehabilitation in the selection and implementation of specific, individualized interventions for cognitive disability.

STATEMENT OF NEED AND TARGET AUDIENCE

Educational opportunities that promote evidence-based interventions for cognitive rehabilitation are needed by clinicians in order to provide optimum care for individuals with brain injury.

ACRM Cognitive Rehabilitation Training provides such an opportunity by presenting evidence-based standards and guidelines for clinical practice and translating them into step-by-step procedures for use by clinicians. The interventions described can be readily used by occupational therapists, speech and language therapists, psychologists, and other rehabilitation professionals.

TESTIMONIAL

Rehabilitation Hospital of Indiana Testimonial:
ACRM Online Cognitive Rehabilitation Manual Training

“The Rehabilitation Hospital of Indiana (RHI), a Traumatic Brain Injury Model System, is committed to providing evidence-based therapy services through supporting the professional development of our clinicians. ACRM’s option for online Cognitive Rehabilitation Manual training was instrumental in RHI’s decision to offer this education to all of our speech-language pathologists and outpatient occupational therapists who specialize in brain injury. The online training option was cost-effective and convenient. Our therapists appreciated the concise translation of research to everyday practice through clearly defined procedures for delivering high quality, functional, evidenced-based treatment. Overall, they found the training extremely valuable and practical with information that they will use in their daily clinical work.”

Christina A. Baumgartner, MS, CCC-SLP
Executive Director of Therapy Operations
Rehabilitation Hospital of Indiana

DISTINGUISHED FACULTY

Deidre Dawson

PhD

Financial – Dr. Dawson has received research grants to investigate the Cognitive Orientation to daily Occupational Performance Approach™ • Is a CO-OP Certified Instructor • Has a book contract with the AOTA press for a book on the CO-OP Approach™ (available Nov. 2017)

Nonfinancial – Dr. Dawson has no relevant non-financial relationships to disclose.

Thomas Bergquist

PhD, ABPP-CN

Dr. Bergquist has no financial or non-financial relationships to disclose.

Keith Cicerone

PhD, ABPP-CN, FACRM

Dr. Cicerone has no financial or non-financial relationships to disclose.

Michael Fraas

PhD, CCC/SLP, CBIS

Financial – Dr. Fraas works for a private practice and receives a salary. Nonfinancial – Dr. Fraas has no relevant nonfinancial relationships to disclose.

Donna Langenbahn

PhD

Dr. Langenbahn has no financial or non-financial relationships to disclose.

PHYSICIANS – Approved

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the New Jersey of Academy of Family Physicians and the American Congress of Rehabilitative Medicine. The New Jersey of Academy of Family Physicians is accredited by the ACCME to provide continuing medical education for physicians.

The New Jersey of Academy of Family Physicians designates this enduring material activity for a maximum of 12.0 *AMA PRA Category 1 Credit(s)*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

SPEECH-LANGUAGE HEARING PROFESSIONALS – Approved

This course is registered for 1.15 ASHA CEUs (Intermediate Level; Professional Area).

An annual ASHA CE Registry fee is required to register ASHA CEUs. ASHA CE Registry fees are paid directly to the ASHA National Office. To register ASHA CEUs with ASHA, you must complete a CE participant form, turn it in at the time of the activity, and pay the ASHA CE Registry fee. ASHA CEUs are awarded ONLY AFTER receipt of the CE Participant Form AND payment of the Registry fee.

OCCUPATIONAL THERAPISTS – Approved

ACRM has applied for AOTA for Distance Learning-Independent for 12 AOTA CEUs. The assignments of AOTA CEUs do not imply endorsement of specific course content, products, or clinical procedures by AOTA.

PHYSICAL THERAPISTS – Approved

Physical Therapists will receive a non-physician Certificate of Attendance.

TURBO BOOST YOUR PRODUCT OR SERVICE

Extra amplification? Want to do something more? Let us know what you are thinking, and we will help build a custom program for you. For example, potential boosts might include — dedicated eblasts to ACRM’s exclusive email list, additional social media boosting including sponsored stories (Instagram and Facebook), sponsored social media posts, etc.

COGNITIVE REHABILITATION MANUAL

TRANSLATING EVIDENCE-BASED RECOMMENDATIONS INTO PRACTICE

Table of Contents

Acknowledgements	VII
Preface	VII
Dedication	VIII

Chapter 1

Introduction: Principles of Cognitive Rehabilitation

1.1 Functions and Structure of this Manual	1
1.2 Limitations of this Manual	2
1.3 How to Use This Manual	2
1.4 Primary Goals of Cognitive Rehabilitation	3
1.5 Process and Flow of Therapy	3
1.5.a Overall Stages of Treatment	3
Acquisition Stage	5
Application Stage	5
Adaptation Stage.....	5
1.6 External Versus Internal Strategies	6
1.7 A Guide to Treatment Planning and (Tactical) Goal Writing	7
1.7.a Moving from Strategies to Tactics	7
1.7.b Long-Term (strategic) and Short-Term (tactical) Goals	8
1.7.c Anatomy of a Short-Term Goal.....	8
1.7.d Sample Template for Goal Setting.....	10
BI-ISIG Committee Recommendations	10
1.8 Treatment Considerations When Designing Training Procedures	11
1.8.a Task-Specific versus Strategic Approaches to Treatment	11
1.8.b External versus Internal Strategies	11

1.9 Neurobehavioral and Psychosocial Factors that Influence Treatment	
Process and Outcome	13
1.9.a Patient Variables.....	13
Impairments of Awareness	13
Severity and Range of Impairment	15
Emotional Reactions and Premorbid Psychiatric Issues.....	15
1.9.b Family Factors	15
1.10 Monitoring Progress in Cognitive Rehabilitation	16
Chapter 2	
<u>Rehabilitation for Impairments of Executive Functions</u>	
2.1 Introduction	19
2.2 Impairments of Executive Functions and Brain Dysfunction	19
2.3 BI-ISIG Recommendations for Impairments of Executive Functions	20
2.4 A General Framework for Rehabilitation of Impairments of Executive Functions	20
2.5 Metacognitive Strategy Training for Impairments of Executive Functions ..	23
2.5.a Metacognitive Strategy Training for Impairments in the Treatment of Executive Functioning Deficits	25
Self-Talk Procedures.....	25
2.6 Formal Problem-Solving Strategies	26
2.6.a Stages in the Training of Formal Problem-Solving Procedures.....	29
Acquisition	29
Application.....	29
Adaptation	29
2.6.b Applying the Strategy to Specific Tasks	29
2.6.c General Treatment Considerations with Formal Problem-Solving..	32
2.7 Metacognitive Strategy Training for Behavioral and Emotional Dysregulation	32

2.7.a Treating Deficits in Awareness.....	32
2.7.b Predict-Perform Procedure.....	34
2.7.c Summary of Awareness Interventions Matched with Causes of Unawareness	35
2.7.d Clarifying the Nature of the Problem	36
2.7.e Planning a Solution	37
2.7.f Executing, Monitoring, and Adapting	38
2.8 Complex Evidence-Based Programs for the Rehabilitation of Impairments of Executive Functions.....	39
2.8.a Problem-Solving Group Protocol: Rusk Institute	39
Problem-Solving Group Protocol: Worksheets	40
2.8.b Anger Management Therapy Programme: Royal Rehabilitation Centre	41
2.9 Strategic and Tactical Goal Writing in the Rehabilitation of Impairment of Executive Functions	41
 Chapter 3	
<u>Rehabilitation for Impairments of Memory</u>	
3.1 Introduction	43
3.2 Impairments of Memory Deficits and Brain Injury	43
3.3 BI-ISIG Recommendations for Memory Dysfunction	44
3.4 A General Framework for Rehabilitation of Impairments of Memory	44
3.5 External Memory Compensations.....	47
3.5.a General Guidelines for External Memory Compensations.....	47
3.5.b Memory Notebook Types	47
Orientation Book and Strategies for Severe Memory Impairment	48
Errorless Learning Technique	49
Spaced Retrieval Technique	50

Chaining Technique.....	52
Memory Notebook	56
3.5.c Stages of Training in the Use of Memory Notebook	
Procedures.....	57
Acquisition Stage	57
Discontinuation Criteria.....	58
Application Stage	58
Adaptation Stage.....	58
Cross Out, Notation, and Next Activity (CNN)	60
Updating and Cleaning Routine	60
Scoring and Documentation	61
3.6 Memory Strategy Training	61
3.6.a. General Guidelines for Memory Strategy Training	61
3.6.b Types of Memory Strategy Training.....	62
Association Techniques	62
Organizational Techniques	63
3.6.c Stages of Strategy Training	64
Assessment and Selection of Techniques	64
Acquisition Stage	65
Application Stage	65
Activities for Application Stage	66
Adaptation Stage	66
Activities for Adaptation Stage.....	67
3.7 Complex Evidence-Based Programs for the Rehabilitation	
of Impairments of Memory.....	67
3.7.a Memory Rehabilitation Group	67
3.7.b TEACH-M	69
3.8 Strategic and Tactical Goal Writing in Rehabilitation of Impairments	
of Memory.....	70

Chapter 4

Rehabilitation for Impairments of Attention

4.1 Introduction	73
4.2 Impairments of Attention after Brain Injury	73
4.3 BI-ISIG Recommendations for the Rehabilitation of Impairments of Attention	74
4.4 General Framework for the Rehabilitation of Impairments of Attention	75
4.5 Attention Process Training (APT) Training	76
4.5.a APT Generalizing Activities	77
4.6 Time Pressure Management	79
4.6.a Stage 1: Identifying the Problem	80
4.6.b Stage 2: Teaching the Strategy	80
4.6.c Stage 3: Generalization	83
4.7 Rehabilitation of Working Memory	83
4.7.a LEVEL I. N-Back Procedures	84
4.7.b LEVEL II. N-Back with Additional Working Memory Demands	85
4.7.c LEVEL III. N-Back with Continuous Secondary Task	85
4.7.d Clinical Application	86
4.8 Strategic and Tactical Goal Writing in Rehabilitation of Impairments of Attention	87

Chapter 5

Rehabilitation of Hemispatial Neglect

5.1 Introduction	89
5.2 Hemispatial Neglect in Brain Dysfunction	89
5.3 BI-ISIG Recommendations for Hemispatial Neglect	89
5.4 General Framework for the Rehabilitation of Hemispatial Neglect	89
5.5 Visual Scanning Training	91

5.5.a Principles of Visual Scanning Training.....	91
5.5.b Assessment of Visual Scanning	92
5.5.c Step in Systematic and Orderly Scanning Training	92
5.5.d Computerized Visual Scanning Training	94
5.5.e Visual Scanning Training for Reading and Copying Prose	94
5.5.f Visual Scanning for Describing Pictures	102
5.6 Visual Imagery Training: Lighthouse Strategy	104
5.6.a Activities for Training in Visual Scanning and the Use of the Lighthouse Strategy	104
5.7 Limb Activation Strategies	105
5.7.a Spatio-Motor Strategies.....	105
5.7.b Visuo-Spatio-Motor Strategies.....	105
5.7.c Activities for Training in the use of Spatio-Motor and Visuo-Spatio-Motor Strategies:	106
5.7.d Imagined Limb Activation	106
5.8 Strategic and Tactical Goal Writing for the Rehabilitation of Hemispatial Neglect	107

Chapter 6

Rehabilitation of Impairments of Social Communication

6.1 Introduction.....	110
6.2 Impairments of Social Communication after Brain Injury.....	110
6.3 BI-ISIG Recommendations for the Rehabilitation of Impairments of Social Communication	111
6.4 A General Framework for the Rehabilitation of Impairments of Social Communication	111
6.5 Group Treatment for Social Communication Deficits	112
6.5.a Structure	112
6.5.b Group Process.....	112

6.5.c Individual Goal Setting	113
6.5.d Feedback	113
6.5.e Practice and Repetition	114
6.5.f Self-Monitoring	114
6.5.g Generalization of Skills.....	114
6.6 Treatment of Emotion Perception Deficits.....	114
6.6.a Errorless Learning.....	115
6.6.b Self-instruction Training	115
6.7 Individual Psychotherapy and the Treatment of Impairments of Social Communication	115
6.8 Strategic and Tactical Goal Writing in the Rehabilitation of Impairments of Social Communication	116
6.9 Strategic and Tactical Goal Writing in the Rehabilitation of Impairments of Visual Emotion Perception	116
6.10 Example Treatment Goal and Strategies for Use with Auditory Emotion Perception	117
